

PROJ # 997306

FEA 23 SEPT

20 September 1965

Dear Customer

STATINTL

Enclosed you will find prints of the layout of the [REDACTED] X-Y micrometer stage for light table # 2. The unit will meet all of your requirements as far as stereoscope position, working distance and accuracy requirements. The unit will not fit within the envelope specified for light table # 2 due to its length in the Y-Y direction. An overhang of 3 1/4" exists at the rear of table # 2 and 2 1/4" will exist at the rear of table # 3. This overhang cannot be eliminated by [REDACTED] as it would require moving the rear X-X precision way. This modification would degrade the accuracy of the entire motion in both X and Y.

STATINTL

Will you please examine the drawing and tell us if this overhang is permissible. We would like to have an answer as soon as possible as the establishment of a delivery date for light tables # 2 and # 3 is predicated upon your decision.

Thank you very much for your assistance in this matter.

STATINTL

STATINTL

Sincerely [REDACTED]

RLG/mkr
